						,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,	1	,,						
		The condition assessment of pressure mains is undertaken					1							
		by Central Coast Council for a variety of reasons this					1							
		includes 1 Assisting in root cause failure analysis												
		2 Decision making for capital renewal programs					1							
		3 Determining remaining asset life						1						
		4 Improving the accuracy of the risk rating of individual												
		pipes or pipe sections.						1						
		It is proposed that five mains per year are to be inspected												
		and condition assessed in this three year contract with an					1							
		average of three testing locations per asset. These are												
		based on previous criticality assessments and actions arising												
		following previous asset failures. Various excavations will be required to provide a safe and dry working environment for						1						
		the condition assessments to occur. Based on experience					1							
		from previous condition assessments these are to be					1							
		managed by the Consultant as a subcontractor with the fee												
		payable determined following the consultant's procurement					1							
1	I	process as this is variable based on soil types and groundwater and acid sulphate soils etc.
